RE: AAVIN Equity Partners II, LP Interim Financials and Portfolio Valuations
June 30, 2017

Dear Michael:

Enclosed are interim financials for AAVIN Equity Partners II, LP and Portfolio Valuations for June 30, 2017. You will also be receiving financials and valuations for SERSDCSD0001's investment in AAVIN Mezzanine Fund, LP.

Portfolio Update:

As of June 30, 2017, the fund had invested cost of \$ 8,360,173 million dollars in eight portfolio companies. Two portfolio companies have returned principal of \$1,589,689, which can be redeployed into new investments through October 31, 2020. As of June 30, 2017, investments in portfolio companies, carried at cost, totaled \$6,770,484. These investments have returned total cashflows of \$2,425,291 as of June 30, 2017.

The following is a summary of the portfolio as of June 30, 2017:

Company	Invested \$	Current Valuation	Proceeds Received thru 6/30/17
B12 Transportation Group LLC	\$ 665,118	\$ 665,118	\$ 78,497
CPI Luxury Group	1,445,189		1,671,963
Montana Silversmiths, LLC	867,000	722,500	198,858
Odessa AIM Holdings, Inc.	1,300,671	1,300,671	163,056
SPI Acquisition Holdings, Inc.	1,401,650	1,401,650	94,413
Transfer Tool Systems LLC	802,469	765,470	93,979
Verrex, LLC	578,076	578,076	55,560
WSC Holdco, Inc.	1,300,000		68,965
	<u>\$ 8,360,173</u>	<u>\$ 5,433,485</u>	<u>\$ 2,425,291</u>

New Investments:

On April 14, 2017, the Fund invested \$36,999 of follow-on financing in Transfer Tool Systems LLC.

Deal Flow:

In the first half of 2017 we reviewed 380 + potential investment opportunities. We currently have four investments under letter of intent with LOIs totally over \$5 million. Two are anticipated to close by the end of August and two in September.

Capital:

To date we have drawn \$7,778,649 of capital from SERSODCSD 0001 or 31% of committed capital. The Fund has a credit line in place in order to more efficiently manage capital required to make investments. When investments are made the line is utilized and shortly afterwards a capital request is made to SERSODCSD 0001. Currently, it is anticipated that during the third quarter two capital calls will be requested for four investments that are under LOI. Two are expected to close by the end of August 2017 and two in mid-September 2017. These amounts are currently expected to total approximately \$2.1 million and \$2.4 million, respectively.

If you have questions or matters you wish to discuss please contact me.

Thank You – Sincerely,

A handwritten signature in blue ink, appearing to read "J. Thorp", with a stylized flourish at the end.

James D. Thorp

AAVIN EQUITY PARTNERS II, LP
NOTES TO FINANCIAL STATEMENTS
June 30, 2017

1. Nature of business and significant accounting policies

Organization and nature of business

AAVIN Equity Partners II, LP (the "Partnership") is a limited partnership organized under the laws of the State of Delaware to operate as a mezzanine and private equity fund to provide debt and equity capital to small later stage businesses throughout the United States. The Partnership was formed on November 5, 2014 and commenced operations on January 7, 2015 under the Amended and Restated Agreement of Limited Partnership ("Agreement"). The Partnership consists of one Limited Partner, School Employees' Retirement System of Douglas County School District 0001, and a General Partner, AAVIN II, LLC. The Partnership's fiscal year ends December 31. Significant accounting policies followed by the Partnership are presented below.

Under the Agreement, the Partnership shall continue until the first to occur of the following: (1) withdrawal, dissolution or bankruptcy of the General Partner, or (2) the later of January 7, 2025, subject to four additional one year extensions to such date in the sole discretion of the General Partner or (3) at the election of the General Partner and the Limited Partner.

Basis of accounting

The accompanying financial statements have been prepared on a basis of accounting prescribed by the U.S. Small Business Administration which is a basis of accounting other than accounting principles generally accepted in the United States of America ("U.S. GAAP"). Some of the key considerations are as follows:

Investment securities included in the financial statements have been valued by the General Partner using the valuation criteria established by the SBA. This criteria was established in accordance with Section 310(d)(2) of the Small Business Investment Act of 1958, as amended. The reported value used for equity securities in the Statements of Financial Position (also known as "SBA Guideline Value"), must be determined in accordance with the Partnership's valuation policy. Reported value may differ in certain instances from fair value, which is the measurement of value that would comply with U.S. GAAP.

1. Nature of business and significant accounting policies, continued

Basis of accounting, continued

FASB ASC 820-10, *Fair Value Measurements*, defines the value in accordance with U.S. GAAP as the “price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The primary differences between the two measurements are that in the case of values determined in accordance with SBA Guideline Value (i) an increase in value above cost may only be reflected in reported value if there is a specific permitted basis under the Partnership’s valuation policy; (ii) liquidity (or “blockage”) discounts, which are prohibited under U.S. GAAP, must be considered for inclusion in reported value; (iii) the reported value of interest-bearing securities is not adjusted for changes in interest rates. It is expected that reported value will not exceed, but may be less than, “fair” value in accordance with U.S. GAAP. The differences between reported values and U.S. GAAP reported fair values may be significant.

There may also be other differences between SBA-basis financial statements and U.S. GAAP-basis financial statements including, but not limited to, the treatment of unrealized gains and losses, and presentation of financial highlights. The General Partner has elected to use the SBA-basis of accounting because all of the partners are also investors in a similar partnership that is a Small Business Investment Company required to use the SBA-basis of accounting and they desire to have comparable financial statements.

Investments

Investment securities of the Partnership are included in the Statements of Financial Position at SBA Guideline Value, as described previously. Investments for which no active public market exists are valued at SBA Guideline Value as determined in good faith by the General Partner and approved by the investment committee of the General Partner, based on all relevant factors. The investments are carried at cost until events subsequent to the date of investment indicate that cost is not the best measure of SBA Guideline Value. If such events have occurred, the value will be determined by taking into consideration the cost of the securities; developments concerning the company to which the securities relate subsequent to the acquisition of the securities; any financial statements and projections of the company provided to the General Partner; and, such other factor or factors as the General Partner may deem relevant. Among the factors considered in determining the reported value of investments will be the cost of the investment; developments subsequent to the acquisition of the investment, including recent financing transactions; the financial condition and operating results of the portfolio investment, market values for similar securities, the long-term potential of the business of the portfolio investment; overall market conditions and other factors generally pertinent to the valuation of investments. As of June 30, 2017, the Partnership had made eight investments, which are all carried at cost, except CPI Luxury Group which has been fully repaid as of June 23, 2017. Management expects to call the remaining capital from the limited partner over the next three to five years and identify additional companies for investments.

1. Nature of business and significant accounting policies, continued

Investments, continued

In the valuation process, the General Partner uses financial information received monthly, quarterly, and annually from the portfolio companies which will include both audited and unaudited financial statements. This information is used to determine financial condition, performance, and valuation of the portfolio investments.

The value of certain investments may also be adjusted to equate to a subsequent significant equity financing that includes a sophisticated, unrelated new investor. An investment may be valued at less than cost if the investee shows a significant fundamental deterioration in financial position or operating results or has defaulted under the terms of its agreement with the Partnership.

Investments whose values have been estimated by the General Partner, and approved by the investment committee, of \$2,384,333 of equity securities and \$4,386,151 of secured loans (See Note 2) represent 32% and 59% respectively, of total assets at June 30, 2017. The Partnership has made an investment in one new portfolio company during 2017 and one follow-on.

Use of estimates in preparing financial statements

The preparation of financial statements in conformity with accounting practices prescribed by the SBA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant estimate is the estimate of the SBA guideline value of equity investments, which is subject to significant market risk and could differ materially from actual values realized.

Concentration of credit risk

The Partnership maintains its cash and cash equivalents at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. As of June 30, 2017, total uninsured cash balances were approximately \$335,401.

Cash and cash equivalents

The Partnership considers highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Partners' capital – distributions and allocation of gain and loss

Capital contributions are credited to the partners' capital accounts when received by the Partnership. Capital distributions are debited to the partners' capital accounts when paid. Income and losses are allocated to the partners' accounts in accordance with the Agreement as described below.

1. Nature of business and significant accounting policies, continued

Partners' capital – distributions and allocation of gain and loss, continued

Distributions to partners are generally made (i) first, to the partners in proportion to their unreturned capital contributions until they have received distributions equal to their capital contributions with respect to all realized investments and the pro rata expenses of the Partnership with respect to all realized investments; (ii) second, to the partners until they have received distributions equal to and in proportion to the outstanding unpaid preferred return of 8% per annum, compounded annually on unreturned capital contributions of each partner, and (iii) thereafter 90% to the partners in proportion to their respective capital contributions and 10% to the General Partner.

Net profits and net losses of the Partnership will be allocated to the partners' respective capital accounts in a manner consistent with distributions.

Revenue recognition

Interest income is recorded on the accrual basis. When in the judgement of management, the collectability of such income is doubtful, a reserve for loss account is established to the extent there is doubt as to the collection of the amounts accrued. The Partnership recorded reserves as a reduction of interest income totaling \$44,631 as of June 30, 2017. Dividend income is recognized on the date the dividend is declared and payable.

Amounts reported as realized gains or losses on investments will be measured by the difference between the net proceeds of sale or write-off and the cost basis of the investment on the specific identification method, without regard to unrealized gains and losses. The cost of securities that have, in the General Partner's judgment, become worthless, are written off and reported as realized losses.

Unrealized appreciation of investments

Unrealized gains (losses) on securities held result from the valuation of investments by the General Partner. Unrealized appreciation is recognized for valuations above cost and unrealized depreciation is recognized for valuations below cost. Unrealized gains or losses are the aggregate amounts obtained by summing the unrealized appreciation or depreciation of all investments, net of any estimated future income tax effects. Such changes are recorded directly in the partners' capital account, unrealized appreciation of investments, in the Statements of Financial Position.

Income taxes

The Partnership, with the consent of its partners, has elected to be taxed under sections of the federal and state income tax law as a Partnership. As a result of this election, no income taxes are paid by the Partnership. Instead, the partners separately pay tax on their pro rata allocation of the Partnership's income, deductions, losses and credits.

2. Loans

Subordinated secured loans are included with investments in the statements of financial position and consist of the following as of June 30, 2017:

Company	Date of Advance	Principal Advanced	Loan Terms	2017
B12 Transportation Group, LLC	12/7/2015	332,393	Note accrues interest payable monthly on the principal balance at a rate of 11% per annum. Rate will increase to 12% on 12/7/16, 13% on 12/7/17, and 14% on 12/7/18. Principal balance is due at maturity on 12/7/20.	\$ 332,393
Montana SilverSmiths Holdings, LLC	10/28/2016	505,750	Note accrues interest payable monthly on the principal balance at a rate of 13% per annum. Additional, payment-in-kind ("PIK") interest compounded monthly at a rate of 4% and added to principal balance. Principal balance is due at maturity on 10/27/21.	505,750
Odessa AIM Holdings, Inc.	8/31/2016	1,069,439	Note accrues interest payable monthly at a rate of 14% per annum until maturity on 8/31/21.	1,069,439
SPI Acquisition Holdings, Inc.	12/28/2016	840,990	Note accrues interest payable monthly on the principal balance at a rate of 12% per annum. Additional, PIK interest compounded monthly at a rate of 1% and added to principal balance. Principal balance is due at maturity on 12/28/21.	840,990
Transfer Tool Holdings, LLC	8/10/2015, 11/4/16, 4/14/17	435,066	Note accrues interest payable monthly at a rate of 14% per annum until maturity on 8/10/20.	496,281
Verrex, LLC	7/21/2016	361,298	Note accrues interest payable monthly on the principal balance at a rate of 14% per annum until maturity on 7/21/21.	361,298
WSC Holdco Inc.	3/10/2017	780,000	Note accrues interest payable monthly on the principal balance at a rate of 14% per annum until maturity on 3/11/22.	780,000
Total Subordinated Secured Loans				<u>\$ 4,386,151</u>

2. Loans, continued

Interest income earned on loans detailed above was \$327,057 for the six months ended June 30, 2017. The Partnership had accrued interest receivable of \$64,436 (net of reserve of \$44,631) at June 30, 2017.

The above loans are secured by substantially all the assets of the respective companies. The Partnership's claim is subordinate to the respective companies' bank debt. Loan balances are included in the cost of investments on the balance sheet (see Note 1, Investments).

3. Management agreement and related party transactions

The General Partner has contracted with AAVIN Equity Advisors, LLC ("AAVIN") to manage the Partnership's activities. Under the terms of the Management Agreement ("agreement"), AAVIN provides essentially all of the management and administrative services required by the Partnership. The Management Agreement expires upon termination of the Partnership.

The Partnership pays an annual management fee computed on a daily basis equal to 2% of the management fee base. Management fee base is the aggregate commitments of the limited partner during the management fee period and after the management fee period; the management fee base is the cost basis of the Partnership's portfolio securities in active portfolio companies. The management fee period commences on the commencement date and ends on the earlier of six years after the commencement date or the initial closing of a successor fund.

To the extent AAVIN receives any financing fees, management fees, director and/or transaction fees from a portfolio company (other than investment banking fees), all such fees shall reduce management compensation. During the second quarter ended June 30, 2017, \$26,000 of these fees were generated related to the closing an investment. Also, pursuant to the Management Agreement, other fees received by the General Partner or AAVIN from any portfolio company reduce eligible management fees as well. Other fees received for the second quarter ended June 30, 2017 were \$38,129. Total offsetting fees to management fees for the second quarter ended June 30, 2017, \$64,129.

During the second quarter ended June 30, 2017, management fees to AAVIN totaled \$187,704 (net of \$64,129 in fees). Accrued management fees of \$20,933 were payable to AAVIN at June 30, 2017.

3. Management agreement and related party transactions, continued

The General Partner may elect to reduce up to 100% of management compensation that would be payable in order to satisfy the 1% capital contribution of the General Partner. The General Partner's total committed capital at June 30, 2017, was \$252,525 with contributions to date totaling \$78,572. Management fees waived to reduce contributions totaled \$15,404 for the and second quarter ended June 30, 2017. Management fees totaling \$78,572 have been waived since the Partnership commenced operations.

4. Note payable

The Partnership has a revolving credit agreement with a bank that expires on March 2, 2018, which authorizes maximum borrowings of \$2,000,000. As of June 30, 2017, advances bear interest at the Wall Street Prime rate of 4.25% and a margin of 0%. The Partnership had a \$0 outstanding balance as of June 30, 2017, under this agreement. Interest expense for second quarter ended June 30, 2017, under this agreement was \$2,364.

5. Partner capital commitments, contributions and unfunded commitments

At the inception of the Partnership, the partners entered into subscription agreements obligating the partners to purchase a partnership interest equal to an agreed upon amount of future total commitments. As of June 30, 2017, the amounts of contributions to date and remaining unfunded commitments are summarized as follows:

	June 30, 2017		
	General Partner	Limited Partner	Total
Commitments	\$ 252,500	\$ 25,000,000	\$ 25,252,500
Contributions to Date	78,572	7,778,649	7,857,221
Unfunded Commitments	<u>\$ 173,928</u>	<u>\$ 17,221,351</u>	<u>\$ 17,395,279</u>

Unfunded commitments are expected to be called over the next three to five years.

6. Preferred return on unreturned capital contribution

The limited partnership agreement provides for a preferred return of 8% per annum, compounded annually, on unreturned capital contributions of the limited partner (see Note 1 – Partners Capital). The accumulated preferred return on unreturned capital contributions of the limited partner as of June 30, 2017, totals \$712,012. This is a memorandum account only and is being tracked for future distribution waterfalls.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
B12 TRANSPORTATION GROUP, LLC - INVESTMENT VALUATION
June 30, 2017

Valuation

The valuation of B12 Transportation Group, LLC (B12) remains unchanged from the prior period. As of June 30, 2017, the valuation is \$1,636,032 for AAVIN Mezzanine Fund, LP (AMF) and \$665,010 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. Total amount invested by AAVIN Funds equals \$2,301,042.

Business Description

B12 is a holding company that has acquired two companies and they operate as wholly owned subsidiaries.

B12 was acquired on December 7, 2015. Brown is a 69 year old company that is a manufacturer of cargo van bodies and an upfitter of Rail "Maintenance Of Way" equipment. The company is headquartered in Lawrence Kansas.

Diamond Coach (Diamond) was acquired on December 27, 2015. Diamond is a 50 year old company that is a manufacturer of 15-20 seat courtesy buses. The primary customers are senior care, airports, auto rental and hospital industries. The company is located in Oswego, Kansas.

Financing

Through the investment in B12, AMF and AEPII participated in a buyout of the stock. The total purchase price for the business which

include real estate was \$16,403,876. Four other funds including three SBIC's participated in the transaction.

AMF, invested a total of \$1,636,032 in the transaction. The investment is \$817,607 in 11% subordinated debt with a five-year term (the interest rate increases to 12% - year 2, 13% - year 3, and 14% thereafter) and \$817,607 in 5% preferred units and \$818.00 in common membership units. The preferred dividend compounds annually and increases from 5% to 6% after the 5th anniversary date. The preferred units are redeemable at any time by the company for the amount of the accrued dividends plus the original cost. The preferred units are puttable by any holder thereof any time after the 7th anniversary at the amount of the accrued dividends plus the original cost.

AEPII, invested a total of \$665,010 in the transaction. The investment is \$332,393 in 11% subordinated debt with a five-year term (the interest rate increases to 12% - year 2, 13% - year 3, and 14% thereafter) and \$332,393 in 5% preferred units and \$332.00 in common membership units. The preferred dividend compounds annually and increases from 5% to 6% after the 5th anniversary date. The preferred units are redeemable at any time by the company for the amount of the accrued dividends plus the original cost. The preferred units are puttable by any holder thereof any time after the 7th anniversary at the amount of the accrued dividends plus the original cost.

AMF/AEPII hold one Board seat and one observer position on the Board of Directors of B12.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
B12 TRANSPORTATION GROUP, LLC - INVESTMENT VALUATION
June 30, 2017

Current Status

AMF and AEPII closed this investment on December 7th, 2015. AAVIN invested alongside Kansas Venture Capital, LP, MidStates Capital, LP, B-12 investors, LP, and Exmarq Capital, LP.

YTD sales through May 2017 are ahead of plan by \$80,000. YTD EBITDA is behind plan by \$100k. Gross Margin YTD is 16.8% vs. plan of 18.6%. The gross margin variance is primarily timing and product mix as well as costs associated with the development of the trolley product line. Company sales have been improved in 2017 and YTD sales of \$16,290,816 vs. plan of \$16,210,285. The company has an aggressive forecast of \$40 million in sales in 2017 with an EBITDA of \$2,850,000. The company has expanded its customer base and also has developed a new product line “trolley” that will begin production in June of 2017. The company is on plan through May in revenues. The gross margin and EBITDA margin improvement is the focus of management as they continue into the second half of 2017. The second half of 2017 is forecasted to see revenues from both the trolley line and additional sales of the rail product line. As of July 12, 2017 total backlog was \$7,981,000.

Keys to Success

- Maximize combined entities synergies
- Expand sales into other product lines

- Continue to gain market share in rail products and truck products and expand in the trolley product line
- Continued focus on margin improvement
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and also pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

Waterfall

In the event of a sale of the company and after the repayment of any revolving credit, all senior debt and any other retained liabilities, the Sub Debt of \$6,218,969 plus all accrued and unpaid interest would be paid next. Then Preferred Units of \$6,218,969 plus all accumulated dividends would be paid next ratably among the holders thereof. Any remaining balance of proceeds would then be paid ratably to the holders of common units.

BUSINESS DESCRIPTION

CPI imports and wholesales pearls and other related jewelry products. CPI purchases freshwater pearls direct from farmers in China, has the pearls processed in Hong Kong (drilling, bleaching and stringing operations) and imports the pearl strings to the United States. At its location in Los Angeles, the Company categorizes the pearls and does final assembly, boxing and shipping to stores or directly to end customers. CPI is the primary pearl provider to a number of large national accounts, including Macy's, JC Penney, Fred Meyer, Helzberg and Kohl's. CPI sells not only generic pearl jewelry, but also branded product to certain accounts (Belle de Mer to Macy's, Joy de Mer to Fred Meyer). Since 2011 CPI has also sold through an Amazon storefront as pearlzzz.com and since 2013 direct to Amazon's curated products program.

FINANCING

AAVIN Mezzanine Fund, LP (AMF) and AAVIN Equity Partners II, LP (AEPII) participated in a recapitalization of CPI's existing debt of \$24,220,179 with Salus Capital (representing approximately \$1,100,000 below the then outstanding balance with Salus as an incentive to close by June 30, 2016). East West Bank provided a revolving line of credit of \$25,000,000, of which \$20,003,179 was funded at closing.

AMF invested a total of \$3,554,811 in the transaction. The investment was entirely in 17.5% subordinated debt with a five year term.

AEPII invested a total of \$1,445,189 in the transaction. The investment was entirely in 17.5% subordinated debt with a five year term.

IRR **20.14%**

*\$5,000,000 investment less a 2% closing fee.

** Assumes \$2,000,000 repayment in 2016 from building refinancing, remainder of repayment as balloon.

HISTORIC DISCUSSION

CPI required the AAVIN loans to complete the refinancing of its previous senior debt because its new senior lender would not advance the full amount of the previous loans. It was CPI's stated intent to repay the AAVIN notes as quickly as possible and return to only a single senior lender as its outside financing source.

CPI was affected negatively in late 2016 by store closures at Macy's, its largest customer. However, management quickly reacted to reduce costs, including having the executives take significant compensation cuts. As a result, CPI was never in danger of missing its free cash flow coverage ratio covenants set by the senior lender. 2017 has started as a strong year for CPI with sales above plan, particularly over the Mother's Day holiday in May. Gross margins were slightly below plan, but were more than compensated by higher sales and continued limitation of executive compensation.

In January 2017, the Company refinanced its building with HomeStreet Bank, which resulted in \$3.7 million being available to prepay the AAVIN loans. In connection with this repayment, the

interest rate on the remaining AAVIN loans increased from 17.5% to 18.0%. In June 2017, East West Bank, CPI's senior lender, refinanced the remaining AAVIN loans.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Montana SilverSmiths, LLC - INVESTMENT VALUATION
June 30, 2017

Valuation

The valuation of Montana SilverSmiths remains unchanged from the prior period. The valuation is \$1,777,500 for AAVIN Mezzanine Fund, LP (AMF) and \$722,500 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment less the amount of the bridge loan of \$500,000 which was repaid on 12/31/16. The total amount invested by AAVIN combined funds was \$3,000,000 less the amount of the bridge loan of \$500,000.

Business Description

Montana SilverSmiths is a manufacturer and the largest supplier of western buckles, jewelry and watches. The company is the most recognizable brands in the western lifestyle industry. Montana is located in Columbus, Montana and has been in business for over forty years. The company sells its products through large western retailers such as Boot Barn as well as farm stores and independent specialty shops. The company also sells through event sponsorships promotional outlets, television jewelry sales, and a growing on-line presence.

Financing

AMF and AEPII participated in a buyout of the stock of Montana SilverSmiths. The total purchase price for the business which includes the real estate was \$9,000,000. Two other SBIC's participated in the transaction.

AMF, invested a total of \$2,133,000 in the transaction. The investment is comprised of \$1,244,250 in 17% (13% current pay + 4% PIK) subordinated debt with a five-year term and \$533,250 in Class A

membership units and \$355,500 in the form of a 10% bridge note. As of December 30, 2016 the bridge note was repaid.

AEPII, invested a total of \$867,000 in the transaction. The investment is comprised of \$505,750 in 13% current pay + 1% PIK subordinated debt with a five-year term and \$216,750 in series A membership units and \$144,500 in the form of a 10% bridge note. As of December 31, 2016 the bridge note was repaid.

AMF/AEPII hold one Board seat on the Board of Directors of MSS. AMF/AEPII have the right to also have two observers attend board meetings.

Current Status

AAVIN closed this investment on October 28, 2016. Private Bank has provided a \$6.3 million LOC for the company. AAVIN invested alongside Diamond State Ventures and MidStates Capital. Year to date through May 2017 sales are behind plan due to continued retail softness in specialty retail and small accounts. EBITDA is behind plan following a negative variance in sales and gross margin. The company has opened a small footprint retail store in Bozeman Montana in early June. Traffic has been strong and the company expects solid performance for the year from the store. The company is adding another small footprint store in Park City, Utah. The company has recently become listed as a "Prime Account" on Amazon and is also listed on WalMart.com. The company expects to see increased sales in the second half of 2017. As of June 30, 2017 the company is not in compliance with the bank FCCR in April and May. The bank has notified the company of the non-compliance in a letter dated July 7,

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Montana SilverSmiths, LLC - INVESTMENT VALUATION
June 30, 2017

2017. This has resulted in a payment blockage to the sub-debt holders.

The company is historically stronger in the second half of the year and in the fourth quarter. The company expects to be back in compliance in the second half of the year.

Keys to Success

- Expand sales into other product lines and retail locations
- Continue to gain market share in e commerce as well as specialty sales and event sales.
- Right size the company expense structure
- Focus on gross margin
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

Montana SilverSmiths, LLC - INVESTMENT VALUATION
June 30, 2017

Waterfall

In the event of a sale of the company and after the repayment of any revolving credit, all senior debt and any other retained liabilities, the distribution of any remaining balance of proceeds would be pro-rata with Class B units and Class C units receiving an amount equal to 50% of their outstanding equity percentages with the balance to Class A units until the Class A units have received an amount equal to 2.5x the original cost. After the Class A units have received 2.5x the Class C and Class B units will receive catch up distributions until they receive their respective outstanding equity percentages of total distributions. Any remaining balance will be distributed pro-rata to the Class A, Class B and Class C units pro-rata according to their respective outstanding equity percentages. Class A is owned by the investors, Class B units are those issued to Stone Creek as their sponsor promote and Class C units are those reserved for issue to management.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Odessa AIM Holdings. Inc. - INVESTMENT VALUATION
June 30, 2017

Valuation

The June 30, 2017 valuation of Odessa Aim Holdings, Inc. ("AIM" or the "Company") is unchanged from December 31, 2016. It remains \$3,199,329 for AMF and \$1,300,671 for AEPII each of which is equal to the original cost of the investment. Total amount invested by AAVIN Funds equals \$4,500,000. The Company continues to perform satisfactorily, is current on all debt and within covenants.

Business Description

AIM, a Delaware corporation, is a holding company established by AAVIN to recapitalize and hold the ownership of Odessa American Industrial Machine, LLC. AIM is a specialty manufacturer of machined parts and components for industrial engines and compressors serving companies with natural gas processing facilities in the Permian Basin (Odessa, Texas and vicinity). AIM provides service to owners of natural gas compression systems whose need is often immediate and critical. When a failed or damaged part on a high value engine or compressor causes an outage, it can, in turn, cause the natural gas producer to incur significant expense and lost revenue. Given the 24/7/365 rugged operating field conditions, component parts need to be repeatedly repaired or replaced. Approximately 70% of Company work is for unplanned part failures. The Company has a reputation for being highly responsive to this urgent, time dependent, customer requirement. The Company rebuilds or fabricates parts in their machining operation and provides the replacement to its customers which then manage the installation.

Financing

On August 31, 2016 AAVIN closed on a recapitalization that it lead to provide significant liquidity to John Hutson and Walt Tonge (the prior sole owners of AIM) in the amount of \$6,000,000 at closing in exchange for a 50% interest in the Company. AAVIN invested \$4,000,000 to support this transaction and secured another \$2,000,000 in senior term debt from Parkside Financial Bank & Trust. An additional \$1,000,000 in a working capital line of credit based upon receivables and inventory was also put in place and was undrawn at closing. AAVIN provided a total of \$4,500,000 to provide for the recapitalization, closing costs and initial cash operating capital.

AMF invested a total of \$3,199,329 in the transaction: \$2,630,561 was in the form of a 14% 5-year subordinated note, \$563,080 was in 8% redeemable preferred stock and \$5,688 was in common stock representing 36% of the outstanding ownership of the Company.

AEPII invested a total of \$1,300,671 in the transaction: \$1,069,439 was in the form of a 14% 5-year subordinated note, \$228,920 was in 8% redeemable preferred stock and \$2,312 was in common stock representing 14% of the outstanding ownership of the Company.

AMF/AEPII have the right to have two seats on the board of directors.

Current Status

During the first half of 2017 the Company continued at approximately the same pace as 2016. This is behind 2014 and 2015 performance and is primarily due to loss of business from on major customer, DCP. While the Company is behind what was expected when AAVIN closed

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Odessa AIM Holdings. Inc. - INVESTMENT VALUATION
June 30, 2017

the investment it has not had cash flow issues, is paying its bills on time and has yet to have to access its revolving line of credit.

The Company recently completed its first audit. The company still needs to make improvements in its accounting systems. While AAVIN had brought in an outside accounting contractor to assist it has concluded that the Company needs to have its own controller. Management agreed to this and the plan is to hire a controller during the second half of 2017. In addition, we hope to start to pursue additional growth initiatives. The Company has hired a new salesperson that we hope will increase sales with customers/gas plants that are not currently served. Additional salespeople will also be considered, but we are exploring other services and possible geographic expansion.

Keys to Success

- Successfully implement more sophisticated systems to track financial and operational metrics and use to evaluate and help manage growth.
- Determine supplemental personnel needs to provide for and manage growth and successfully recruit and hire.
- Execute on growth plans prudently. Evaluate options and prioritize relative to available resources and economic

opportunity. Develop measurable target endpoints. Implement and proactively monitor feedback against targeted results. Take timely and corrective actions as appropriate.

Exit Strategy

The potential exit opportunities for this Company are most probably a sale to a strategic or financial acquirer. The management team has built a similar previous company that was sold to Dresser-Rand a strategic acquirer.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
SPI ACQUISITION HOLDINGS, INC. - INVESTMENT VALUATION
June 30, 2017

Valuation

The valuation of SPI Acquisition Holdings, Inc. and its wholly owned operating subsidiary, Standard Precast, Inc. (SPI or Company) is equal to cost as of June 30, 2017 which is \$ 3,448,350 for AMF and \$1,401,650 for AEP II. Total amount invested by AAVIN Funds equals \$4,850,000.

Business Description

SPI is a manufacturer of precast concrete products that are used in the collection and distribution of water and wastewater infrastructure projects. While it makes a variety of products for these applications, the majority of items sold are manholes, box culverts, and inlets. The Company and plant are located in Jacksonville, Florida and the majority of the Company's business is from that area. SPI was started in 1961 and has operated continuously since that time.

Financing

AAVIN invested \$4.850 million in the acquisition of SPI. The transaction closed on December 27, 2016. AAVIN was joined in the purchase by Diamond State Ventures which invested an identical amount on identical terms. The purchase price for the Company was \$18.007 million. We each own approximately 44.8% with the remainder owned by Woodlake Advisors who sponsored the transaction and will have an ongoing management role and a significant ownership incentive based on the Company's ultimate liquidation value. Senior bank financing of \$9 million was provided by Hancock Bank which also is providing a line of credit of up to \$2.5 million. Finally, although separate from our purchase transaction, the Company sold its real estate for approximately \$7.5 million in a sale and leaseback (by the new

Company) to Store Capital. Details of the securities purchased by the Aavin entities are as follows:

1. \$2,910,000 in the form of a Subordinate Note dated December 27, 2016 with a 12% interest rate payable monthly and due at December 28, 2021. In addition to the current pay, there is an additional 1% PIK added to the principal and due in full at maturity with the remaining principal. These Notes are secured by a secondary security interest in all of the Companies' assets.
2. \$1,940,000 in the form of a Series A Participating Preferred Stock with an 8% annual dividend rate which is being accrued and will be paid when declared by the Board of Directors. These securities represent a 44.8% equity ownership position initially. This interest is subject to dilution of up to 14.45% from (a) the Class B carried interest incentive of up to 22.25% and (b) a possible 10% management stock incentive program not yet in existence. The Class B incentive is based on the total returns flowing to the Preferred Shares as follows: If the Preferred returns are 1.5x the investment plus 8%, the B receives no incentive. From that level to the point where the Preferred receives 3x cost plus 8%, the B earns the incentive up to the maximum of 22.25%. Interim steps are at:

1.5-2.0=10% , 2.0-2.5=15%, 2.5-3.0=20.00% and 3.0+=22.25%

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
SPI ACQUISITION HOLDINGS, INC. - INVESTMENT VALUATION
June 30, 2017

Current Status

Since the acquisition, the Company has been very busy and in recent weeks has reached record levels of sales and profits (as adjusted for the acquisition costs). The biggest operational problem has been lack of trucks to transport finished product to job sites. Financial results are very close to budget and exceeding prior years' numbers. In addition to the great performance, a couple of positive things have occurred: First, we acquired a small precast plant in Tallahassee (west of Jacksonville) that puts us into another market that we think might be quite attractive. This operation should produce about \$4 million in new sales and may represent a base for further expansion to the west and north. Profits there are modest but should improve with better and more efficient operations which SPI will introduce. This acquisition was financed by an addition of \$1.2 million to our existing bank term loan and will be repaid as part of that loan. Second, we have hired and now have on board a CFO with significant corporate experience in both financial operations and acquisition transactions. Since the purchase, Woodlake has installed reporting systems and other systems that have greatly improved our visibility of the Company's operations and results but more needs to be done, especially if we look at other acquisitions. Our new CFO should be very helpful in doing this.

On the negative side, we are very reliant on Russell Smith, our CEO and President and have not yet gone down the path of looking for a second in command, either from the inside, which seems doubtful, or from the outside. We are approaching the point of doing that soon because Russell has had some health problems recently. Discussions with him will be initiated to get buy in to our approach for finding a COO.

Keys to Success

1. Continue to maintain high margins and dominate the Jacksonville market and now the Tallahassee area and to the West and North
2. Transition to replacement management for the CEO.
3. Look for expansion opportunities that make sense both in Florida and nearby states.
4. Reduce debt as quickly as feasible.

Exit Strategy

The plan is to sell the Company to a larger national player in the precast business. Assuming strong performance, a successful transition to a new CEO, and some growth along with debt reduction, this should be feasible in the 5-year time frame.

Class A is issued at the discretion of the board and the 10% represents the maximum that might be issued. Class B has no value as of 6/30/17. The future value of the Class B will be determined by the ultimate liquidation value of the Company upon its' sale and is related to the multiple of investment received by the Preferred Shares. If such multiple is 1.5x the Preferred cost plus 8%, the B has no value. Thereafter, as the multiple of cost plus the 8% increases to a maximum of 3x cost, the Bs' value will increase to the maximum of 22.25% of the liquidation value as shown above.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
TRANSFER TOOL HOLDING, LLC - INVESTMENT VALUATION
June 30, 2017

Valuation

This valuation is unchanged from the prior period. The company has made significant investments in new presses and in plant expansion. The new business associated with this investment is expected to begin in August of 2017. The company results are being watched closely and if expected improvement in the business is not in process by the end of 2017 a reduction in value will be contemplated.

As of June 30, 2017, the valuation is \$1,874,185 for AAVIN Mezzanine Fund, LP (AMF) and \$765,480 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. The total amount invested by AAVIN combined funds was \$2,639,665.

Business Description

TT develops and manufactures deep drawn metal stampings for long time blue chip customers serving primarily the automotive industry. Established over 30 years ago the company is located in Grand Haven, Michigan. The company has developed a strong niche in the automotive supply industry. The company has been able to develop a long-term relationship with a variety of large automotive manufacturers. TT specializes in high volume production of small custom parts up to 10" in diameter in steel, stainless steel, brass aluminum and other alloys. In addition to its primary function TT also provides services of cleaning, plating, rust inhibiting, deburring, vibratory heat treating and machining.

Financing

AMF and AEPII participated in a buyout of the stock of TT. The total purchase price for the business which includes the real estate was \$26,850,936. Four other SBIC's participated in the transaction.

AMF, invested a total of \$1,774,890 in the transaction. The investment is comprised of \$1,064,934 in 14% subordinated debt with a five-year term and \$709,956 in common membership units.

AEPII, invested a total of \$725,110 in the transaction. The investment is comprised of \$435,066 in 14% subordinated debt with a five-year term and \$290,044 in common membership units.

On November 4, 2016, TT raised additional capital to fund a plant expansion. AMF invested a total of \$99,295 in this follow-on financing of which \$59,577 is in 14% subordinated debt and \$39,718 is in common membership units. AEPII invested a total of \$40,360 in this follow-on financing of which \$24,216 is in 14% subordinated debt and \$16,144 is in common membership units. In April 2017 AMF invested \$91,018 in 14% sub debt. AEP II also invested in this round in the amount of \$36,999 in 14% sub debt.

AMF/AEPII hold one Board seat on the Board of Directors of TT. AMF/AEPII have the right to also have two observers attend board meetings.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
TRANSFER TOOL HOLDING, LLC - INVESTMENT VALUATION
June 30, 2017

Current Status

The company is on plan for revenues through May 31, 2107. The company however is behind plan in GM and EBITDA YTD. The company has seen margin deterioration due to their highest margin customer taking business back in house. The company has made a significant investment in growth infrastructure in 2016 and early 2017 which was needed to be completed ahead of the new business it serves. The company has a significant new customer ARC Automotive which will begin shipping in the third quarter. This new business is expected grow to over \$7 million over three years. The company has also invested heavily in new equipment to service the new business from ARC and Daicel. This new business is expected to begin shipping in the third quarter. The acquisition and development of tooling and qualifying parts has been a longer process than expected and the company has been front loading those costs in advance of the new business.

AAVIN invested in this business alongside Capital For Business, Diamond States Ventures, Kansas venture Capital and MidStates Capital.

Starting in October 2016, in exchange for the senior lender to reset their covenants the Investors agreed to forego interest until such time as the company is back in full compliance.

Keys to Success

- Hired a new CEO
- Expand sales into other product lines
- Continue to gain market share in automotive products
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Verrex, LLC - INVESTMENT VALUATION
June 30, 2017

Valuation

The valuation of Verrex is unchanged from the prior period. As of June 30, 2017, the valuation is \$1,421,924 for AAVIN Mezzanine Fund, LP (AMF) and \$578,076 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. Total amount invested by AAVIN Funds equals \$2,000,000.

Business Description

Verrex is a global design-build and managed services provider of complex audio and video communication technologies, helping companies connect through videoconferencing, audio conferencing, collaboration, presentation, training, video display and AT/IT integrated communication systems.

Verrex was acquired on July 28, 2016. Verrex was founded in 1947 and located in Mountainside, New Jersey. The company has been in business for close to 70 years. The company does business internationally in North America, Canada, United Kingdom, Hong Kong, Singapore and Japan.

Financing

Through the investment in Verrex, AMF and AEPII participated in a buyout of the stock. The total purchase price for the business was \$13,000,000. Two other SBIC's participated in the transaction.

AMF, invested a total of \$1,421,924 in the transaction. The investment is \$888,702 in 14% subordinated debt with a five-year term and \$333,221 in class A membership units.

AEPII, invested a total of \$578,076 in the transaction. The investment is \$361,298 in 14% subordinated debt with a five-year term and \$216,778 in class A membership units.

AMF/AEPII hold one Board seat and one observer position on the Board of Directors of Verrex.

Current Status

AMF and AEPII closed this investment on July 20, 2016. The company has been making progress transitioning from a 70-year family owned company to a private equity financed growth company. AAVIN invested with two other SBIC's, Diamond State Ventures and MidStates Capital. The company has long term relationships with customers which include large banks and law firms. The company operates both domestically and internationally. The company has an aggressive budget for 2017 of \$44 million in sales up from \$34 million in 2016. YTD May 2017 the company is behind plan primarily due to timing of release of projects. The company has \$14 million in on-going projects and \$3.5 million in booked order backlog. While sales are strong the margins have been pressured by competition for projects. The company has recently opened a west coast office which will open the west coast market. The company as of May 31, 2017 has \$5.6 million in cash.

Keys to Success

- Build and expand the West Coast Office second half of 2017
- Expand sales into other applications
- Continue to gain market share in multimedia AV products

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Verrex, LLC - INVESTMENT VALUATION

Waterfall

In the event of a sale of the company and after the repayment of any revolving credit, all senior debt and any other retained liabilities, the Sub Debt of \$4,225,000 plus all accrued and unpaid interest would be paid next. Then Preferred Units of \$3,825,000 plus all accumulated dividends would be paid next ratable among the holders thereof. Any remaining balance of proceeds would then be paid ratably to the holders of common units.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
WSC Holdco Inc. (fka Weeks Service Company) - INVESTMENT VALUATION
June 30, 2017

Valuation

This is a new investment so the June 30, 2017 valuation of WSC Holdco, Inc. is at cost of the original investment which was completed March 10, 2017 – \$3,200,000 for AMF and \$1,300,000 for AEPII.

Business Description

WSC Holdco, Inc., a Delaware corporation, is a holding company established by AAVIN to acquire and hold the ownership of Weeks Service Company, a Texas Corporation (collectively referred herein as “WSC” or the “Company”). WSC performs installation, service, and maintenance of heating and air condition products in addition to electrical and generator service, replacement, and maintenance. WSC is primarily a residential replacement HVAC service provider. WSC services existing single family homes (90% of revenues) and commercial buildings (10%), as such, the Company is not dependent on new construction. To this date, WSC has served over 50,000 local homeowners and businesses in south Texas.

Financing

On March 10, 2017, AAVIN lead and closed the acquisition of Weeks Service Company. The total financing was \$18.5mm which included the purchase price of \$17.5 million and \$1mm for closing and pre-closing costs, working capital adjustments and excess cash for working capital. The Sellers financed \$3mm of the total financing through no dividend convertible preferred stock. The cash funds required for the transaction of \$15.5 million were provided by Parkside Financial Bank & Trust (\$6 million), AAVIN (\$4.5 million), Diamond State Ventures (“DSV”) (\$3.5 million) and Mid States Capital (“MSC”) (\$1.5 million).

The Parkside \$6mm senior term financing is a 5-year term facility with 7-year principal amortization at prime rate plus 1%. Parkside will also make available a \$1 million one-year working capital line of credit that was undrawn at close.

The funds provided by AAVIN and the other SBIC’s were 60% in the form of 14% subordinated debt and the balance was in common stock. On March 10, 2017 AMF invested 1,920,000 in 14% 5-year subordinated debt and \$1,280,000 in Class A Common Stock and AEPII invested \$780,000 in 14% 5-year subordinated debt and \$520,000 in Class A Common Stock.

AMF/AEPII have the right to one seat on the board of directors and an observer. AAVIN receives a \$100,000 annual management fee.

Current Status

The Company has had good financial performance subsequent to the closing. It has outperformed its prior year performance in revenues and EBITDA during this period. In June, the Company set a new record with its best revenue month ever.

Since closing the Company retained BKD and has been busy completing its post-acquisition accounting work. BKD has been retained for this purpose and to do the company’s audit for 2017. The working capital accounting has been completed and the working capital escrow released.

Going forward AAVIN will work with management to improve some accounting systems and reporting. AAVIN also will work with management and board to explore expansion opportunities.

WSC Holdco Inc. (fka Weeks Service Company) - INVESTMENT VALUATION
June 30, 2017

Keys to Success

- Successfully implement more sophisticated systems to track financial and operational metrics and use to evaluate and help manage growth.
- Ultimately recruit a new CEO to replace Gary Weeks who will be retiring prior to the end of our investment horizon. Such CEO should be someone that can take the Company well beyond our investment horizon.
- Execute on growth plans prudently. Evaluate options and prioritize relative to available resources and economic opportunity. Develop measurable target endpoints. Implement and proactively monitor feedback against targeted results. Take timely and corrective actions as appropriate.

Exit Strategy

The intent is to improve systems, develop conventional credit relationships and grow EBITDA. The Company should be attractive to financial buyers and there are a series of strategic buyers that are very active in the market.

Waterfall

In the event of a sale of the company and after the repayment of the funded senior debt to Parkside, the Sub Debt of \$5,700,000 plus all accrued and unpaid interest would be paid next, pro-rata; then Gary and Cindy Weeks will either convert their preferred stock to common stock or take a liquidation preference of \$187.50 per share which would total \$3,000,000 for all shares. The remainder of the proceeds if any would be paid out to the common equity according to the ownership percentages.
