RE: AAVIN Mezzanine Fund, LP Audited Financials and Portfolio Valuations
For the year ended December 31, 2016

Enclosed are copies of AAVIN's 2016 Audit and Portfolio Valuations and an Annual Conference Call Agenda, to be held Thursday, April 20, 2016 at 10:00 am. CST.

Portfolio Update:

During 2016, the fund invested \$13,856,709 million dollars in six portfolio companies. One portfolio company repaid debt in 2016 of \$355,500. As of December 31, 2016, investments in portfolio companies totaled \$16,912,131. These investments returned cashflows of \$1,437,652 during 2016.

The following is a summary of the portfolio as of December 31, 2016:

Company	Invested \$	Current Valuation	Proceeds Received thru 12.31.16
B12 Transportation Group LLC	\$ 1,636,032	\$ 1,636,032	\$ 149,060
CPI Luxury Group	3,554,811	3,554,811	335,485
Montana Silversmiths, LLC	2,133,000	1,777,500	417,436
Odessa AIM Holdings, Inc.	3,199,329	3,199,329	180,381
SPI Acquisition Holdings, Inc.	3,448,350	3,448,350	68,967
Transfer Tool Systems LLC	1,874,185	1,874,185	223,621
Verrex, LLC	1,421,924	1,421,924	62,702
	<u>\$ 17,267,631</u>	<u>\$ 16,912,131</u>	<u>\$ 1,437,652</u>

B12 Transportation Group LLC – 12/7/15: The company is a manufacturer of cargo van bodies and courtesy buses and is based in Lawrence, Kansas.

CPI Luxury Group – 6/30/16: The Los Angeles based company imports and wholesales pearls and other related jewelry products.

Montana Silversmiths LLC – 10/27/16: The 40-year old company operates in Columbus, Montana. It is a manufacturer and supplier of western buckles, jewelry and watches.

Odessa AIM Holdings Inc – 8/31/16: The Company, based in Odessa, Texas, specializes in the repair and maintenance of industrial engine and compressor components.

SPI Acquisition Holdings Inc – 12/27/16: SPI is a manufacturer of precast concrete products and located in Jacksonville, FL.

Transfer Tool Systems LLC – 8/10/15: The company is a manufacturer of deep draw metal stampings used by large automotive supply manufacturers located in Grand Haven, Michigan.

Verrex LLC – 7/20/16: The company is a leader in audio/visual integration and is located in Mountainside, NJ.

Deal Flow:

In 2016, approximately 805 potential opportunities for investment were reviewed. Of those opportunities, the Fund issued terms sheets or indications of interest on 25 potential deals. Relative to these 25 the Fund submitted 17 more detailed letters of intent, which resulted in the completion of 5 portfolio investments. 4 of the 17 letters of intent were active at year end.

Capital:

To date we have drawn private capital of \$10.87 million or 52.5% of committed capital. SBA leverage outstanding totals \$9.68 million. If all investments under Letter of Intent close, approximately \$9.5 million, it is anticipated that a capital call of 20% or \$4,000,000 will be requested in April or May of 2017.

2015 K-1 Information:

K-1s were mailed by our accountant, Bohr, Daum & Greif the week of February 27th, 2017. If you have not received your K-1, please contact Gina Milroy (gmilroy@aavin.com).

If you have questions or matters you wish to discuss please contact me.

Thank You – Sincerely,

James D. Thorp

INDEPENDENT AUDITOR'S REPORT

The General Partner
AAVIN Mezzanine Fund, LP
Cedar Rapids, Iowa

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of AAVIN Mezzanine Fund, LP (a partnership) and subsidiaries, which comprise the consolidated statements of financial position as of December 31, 2016 and 2015 and the related consolidated statements of operations realized, cash flows, and partners' capital for the years then ended included in SBA Form 468, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the basis of accounting described in Note 1; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of AAVIN Mezzanine Fund, LP and subsidiaries as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in accordance with the financial reporting provisions of the Small Business Administration ("SBA") as described in Note 1.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Basis of Accounting

We draw attention to Note 1 of the consolidated financial statements, which describes the basis of accounting. The consolidated financial statements have been prepared in conformity with the accounting practices prescribed or permitted by the SBA, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the reporting requirements of the SBA. The investment securities included in the consolidated financial statements have been valued by the General Partner using valuation criteria applicable to the licensee. These criteria were established in accordance with section 310(d)(2) of the Small Business Investment Act of 1958, as amended. Accordingly, the accompanying consolidated financial statements are not intended to be a presentation in conformity with accounting principles generally accepted in the United States of America. At December 31, 2016 and 2015, such investment securities have been valued at \$16,912,131 and \$3,410,922 (91% of total assets), whose values have been estimated by the General Partner in the absence of readily ascertainable market values. We have reviewed the procedures used by the General Partner in preparing the valuations of investment securities and have inspected the underlying documentation and, in the circumstances, we believe the procedures are reasonable and the documentation appropriate. However, in the case of those securities with no readily ascertainable market values, because of the inherent uncertainty of the valuation, the General Partner's estimate of values may differ significantly from the value that would have been used had a ready market existed for the securities and the differences could be material.

Restriction on Use

This report is intended solely for the information and use of the management of AAVIN Mezzanine Fund, LP and subsidiaries and the SBA and is not intended to be and should not be used by anyone other than those specified parties.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidated schedules of investments and consolidated cumulative schedules of partners' capital are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

AAVIN MEZZANINE FUND, LP AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2016 and 2015

1. Nature of business and significant accounting policies

Organization and nature of business

AAVIN Mezzanine Fund, LP (the “Partnership”) is a limited partnership organized under the laws of the State of Delaware to operate as a mezzanine and private equity fund to provide debt and equity capital to small later stage businesses throughout the United States. The Partnership was formed on October 10, 2014 and commenced operations on October 31, 2014 under the Amended and Restated Agreement of Limited Partnership (“Agreement”). Effective January 7, 2015, the United States Small Business Administration (“SBA”) approved the Partnership’s license application to operate as a Small Business Investment Company (“SBIC”) under the provisions of Section 301(c) of the Small Business Investment Act of 1958, as amended. As of December 31, 2016 and 2015, the Partnership consists of 40 and 41 limited partners, respectively, and a General Partner, AAVIN Mezzanine, LLC. The Partnership’s fiscal year ends December 31. Significant accounting policies followed by the Partnership are presented below.

Under the Agreement, the Partnership shall continue until the first to occur of the following: (1) withdrawal, dissolution or bankruptcy of the General Partner, or (2) the later of October 10, 2024 or two years after all outstanding SBA leverage has matured, subject to two additional one year extensions to such date in the sole discretion of the General Partner or (3) at the election of the General Partner and a majority interest of the Limited Partners after October 10, 2024 if all outstanding SBA leverage has been repaid and all amounts due the SBA have been paid.

The Partnership owns all of the outstanding stock of AAVIN TTP Holdings, Inc., AAVIN B12 Holdings, Inc., AAVIN Verrex, Inc. and AAVIN Montana Silversmith, Inc. AAVIN TTP Holdings, Inc. was incorporated on June 14, 2015, AAVIN B12 Holdings, Inc. was incorporated on November 13, 2015, AAVIN Verrex, Inc. was incorporated on June 16, 2016 and AAVIN Montana Silversmith, Inc. was incorporated on June 28, 2016. These corporations were established as “blocker corporations” in order to avoid unrelated business taxable income generated from limited liability company investments. The blocker corporations hold the equity portion of the Partnership’s investments in Transfer Tool Holdings, LLC, B12 Transportation Group, LLC, Verrex, LLC and Montana Silversmiths Holdings, LLC.

Principles of consolidation

The accompanying consolidated financial statements include the accounts of AAVIN Mezzanine Fund, LP, AAVIN TTP Holdings, Inc., AAVIN B12 Holdings, Inc., AAVIN Verrex, Inc. and AAVIN Montana Silversmith, Inc. AAVIN TTP Holdings, Inc., AAVIN B12 Holdings, Inc., AAVIN Verrex, Inc. and AAVIN Montana Silversmith, Inc. are wholly-owned subsidiaries of AAVIN Mezzanine Fund, LP. All material intercompany transactions have been eliminated in combination.

1. Nature of business and significant accounting policies, continued

Basis of accounting

The accompanying financial statements have been prepared on a basis of accounting prescribed by the U.S. Small Business Administration which is a basis of accounting other than accounting principles generally accepted in the United States of America ("U.S. GAAP"). Some of the key considerations are as follows:

Investment securities included in the financial statements have been valued by the General Partner using the valuation criteria applicable to the licensee. This criteria was established in accordance with Section 310(d)(2) of the Small Business Investment Act of 1958, as amended. The reported value used for equity securities in the Statement of Financial Position (also known as "SBA Guideline Value"), must be determined in accordance with a licensee's valuation policy and is reported by the SBIC as of a measurement date in accordance with SBIC 13 CFR 107.503. Reported value may differ in certain instances from fair value, which is the measurement of value that would comply with U.S. GAAP. FASB ASC 820-10, *Fair Value Measurements*, defines the value in accordance with U.S. GAAP as the "price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." The primary differences between the two measurements are that in the case of values determined in accordance with SBA Guideline Value (i) an increase in value above cost may only be reflected in reported value if there is a specific permitted basis under the licensee's valuation policy; (ii) liquidity (or "blockage") discounts, which are prohibited under U.S. GAAP, must be considered for inclusion in reported value; (iii) the reported value of interest-bearing securities is not adjusted for changes in interest rates. It is expected that reported value will not exceed, but may be less than, "fair" value in accordance with GAAP. The differences between reported values and U.S. GAAP reported fair values may be significant.

There may also be other differences between SBA-basis financial statements and U.S. GAAP-basis financial statements including, but not limited to, the treatment of unrealized gains and losses, and presentation of financial highlights.

Investments

Investment securities of the Partnership are included in the Consolidated Statements of Financial Position at SBA Guideline Value, as described previously. Investments for which no active public market exists are valued at SBA Guideline Value as determined in good faith by the General Partner and approved by the investment committee of the General Partner, based on all relevant factors. The investments are carried at cost until events subsequent to the date of investment indicate that cost is not the best measure of SBA Guideline Value. If such events have occurred, the value will be determined by taking into consideration the cost of the securities; developments concerning the company to which the securities relate subsequent to the acquisition of the securities; any financial statements and projections of the company provided to the General Partner; and, such other factor or factors as the General Partner may deem relevant. Among the factors considered in determining the reported value of investments will be the cost of the

1. Nature of business and significant accounting policies, continued

Investments, continued

investment; developments subsequent to the acquisition of the investment, including recent financing transactions; the financial condition and operating results of the portfolio investment, market values for similar securities, the long-term potential of the business of the portfolio investment; overall market conditions and other factors generally pertinent to the valuation of investments. As of December 31, 2016, the Partnership had made seven investments, which are all carried at cost. Management expects to call the remaining capital from limited partners over the next three to five years and identify additional companies for investments.

In the valuation process, the General Partner uses financial information received monthly, quarterly, and annually from the portfolio companies which will include both audited and unaudited financial statements. This information is used to determine financial condition, performance, and valuation of the portfolio investments.

The value of certain investments may also be adjusted to equate to a subsequent significant equity financing that includes a sophisticated, unrelated new investor. An investment may be valued at less than cost if the investee shows a significant fundamental deterioration in financial position or operating results or has defaulted under the terms of its agreement with the Partnership.

Investments whose values have been estimated by the General Partner, and approved by the investment committee, of \$4,582,679 of equity securities and \$12,329,452 of secured loans (See Note 2) represent 25% and 66%, respectively, of total assets at December 31, 2016. At December 31, 2015, \$1,528,381 of equity securities and \$1,882,541 of secured loans (See Note 2) represent 41% and 50%, respectively, of total assets. The Partnership made investments in five new portfolio companies during 2016 (four equity and secured loan investments and one secured loan investment only). The Partnership made investments in two portfolio companies during 2015 (both equity and secured loan investments).

Use of estimates in preparing financial statements

The preparation of financial statements in conformity with accounting practices prescribed by the SBA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The most significant estimate is the estimate of the SBA guideline value of equity investments, which is subject to significant market risk and could differ materially from actual values realized.

Concentration of credit risk

The Partnership maintains its cash and cash equivalents at one financial institution. The balances are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. As of December 31, 2016, total uninsured cash balances were approximately \$919,000. The cash balance at December 31, 2016 was due to a limited partner capital call in December 2016.

1. Nature of business and significant accounting policies, continued

Cash and cash equivalents

The Partnership considers highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Deferred financing costs

Costs associated with issuing SBA debentures are capitalized and amortized over the term of the related debenture. The Partnership incurred \$173,509 and \$261,531 in deferred financing costs during 2016 and 2015, respectively. These costs are being amortized over 4 to 10 years. Accumulated amortization of these costs as of December 31, 2016 and 2015 totaled \$92,384 and \$37,188, respectively.

Partners' capital – distributions and allocation of gain and loss

Capital contributions are credited to the partners' capital accounts when received by the Partnership. Capital distributions are debited to the partners' capital accounts when paid. Income and losses are allocated to the partners' accounts in accordance with the Agreement as described below.

Distributions to partners are generally made (i) first, to the partners in proportion to their respective capital contributions until they have received distributions equal to their capital contributions with respect to all realized investments and the pro rata expenses of the Partnership with respect to all realized investments; (ii) thereafter 80% to the partners in proportion to their respective capital contributions and 20% to the General Partner.

Net profits and net losses of the Partnership will be allocated to the partners' respective capital accounts in a manner consistent with distributions.

Revenue recognition

Interest income is recorded on the accrual basis. When in the judgement of management, the collectability of such income is doubtful, a reserve for loss account is established to the extent there is doubt as to the collection of the amounts accrued. The Partnership recorded reserves as a reduction of interest income totaling \$34,284 and \$-0- as of December 31, 2016 and 2015, respectively. Dividend income is recognized on the date the dividend is declared and payable.

Amounts reported as realized gains or losses on investments will be measured by the difference between the net proceeds of sale or write-off and the cost basis of the investment on the specific identification method, without regard to unrealized gains and losses. The cost of securities that have, in the General Partner's judgment, become worthless, are written off and reported as realized losses.

Unrealized appreciation/depreciation on investments

Unrealized appreciation is recognized for valuations above cost and unrealized depreciation is recognized for valuations below cost. Such changes are recorded as direct increases or decreases to partners' capital for SBA reporting purposes.

1. Nature of business and significant accounting policies, continued

Income taxes

The Partnership, with the consent of its partners, has elected to be taxed under sections of the federal and state income tax law as a Partnership. As a result of this election, no income taxes are paid by the Partnership. Instead, the partners separately pay tax on their pro rata allocation of the Partnership's income, deductions, losses and credits.

2. Loans

Subordinated secured loans are included with investments in the consolidated statements of financial position and consist of the following as of December 31:

Company	Date of Advance	Principal Advanced	Loan Terms	2016	2015
B12 Transportation Group, LLC	12/7/2015	817,607	Note accrues interest payable monthly on the principal balance at a rate of 11% per annum. Rate will increase to 12% on 12/7/16, 13% on 12/7/17, and 14% on 12/7/18. Principal balance is due at maturity on 12/7/20.	\$ 817,607	\$ 817,607
CPI Luxury Group	6/30/2016	3,554,811	Note accrues interest payable monthly at a rate of 17.5% per annum until maturity on 6/30/21.	3,554,811	-
Montana SilverSmiths Holdings, LLC	10/28/2016	1,244,250	Note accrues interest payable monthly on the principal balance at a rate of 13% per annum. Additional, payment-in-kind ("PIK") interest compounded monthly at a rate of 4% and added to principal balance. Principal balance is due at maturity on 10/27/21.	1,244,250	-

Total Subordinated Secured Loans				<u>\$ 12,329,452</u>	<u>\$ 1,882,541</u>

Interest income earned on loans detailed above was \$764,875 and \$65,632 for the years ended December 31, 2016 and 2015, respectively. The Partnership had accrued interest receivable of \$121,469 (net of reserve of \$34,284) and \$5,996 (net of reserve of \$-0-) at December 31, 2016 and 2015, respectively.

The above loans are secured by substantially all the assets of the respective companies. The Partnership's claim is subordinate to the respective companies' bank debt. Loan balances are included in the cost of investments on the balance sheet (see Note 1, Investments).

3. Small Business Administration debenture securities

The Partnership is a Small Business Investment Company (SBIC) that makes long-term investments in American small businesses and is licensed by the United States Small Business Administration ("SBA"). The principal reason for the Partnership to become licensed as an SBIC was access to financing (Leverage) provided by SBA.

Once licensed, SBICs obtain Leverage by reserving a "Leverage Commitment" and then drawing down Leverage from the Commitment. Leverage Commitments may be obtained at the time of licensing for an amount up to one tier of Leverage and thereafter for up to two tiers of Leverage. Ultimately, the Partnership may potentially draw two dollars of leverage from the SBA for each dollar of private partner capital.

When a Leverage Commitment is issued, the SBIC pays a "one time" commitment fee that is 1 percent of the total Commitment. Each commitment issuance is conditioned upon the Partnership's creditworthiness (as determined by SBA) and full compliance with all other SBA requirements set forth in 13 CFR 107.1200-1240 of the Federal Register.

3. Small Business Administration debenture securities, continued

Once a Commitment is in place, the SBA provides leverage in the form of “Debentures.” Debentures are unsecured ten-year loans that have interest only payable semi-annually. Debentures bear a temporary interest rate based on LIBOR until they are pooled and sold to the public. The interest rate (excluding the annual SBA “Charge” described below) on these Debentures is fixed when the SBA pools Debentures from various SBICs and sells them to the public, with the pooled Debentures having a 10-year maturity from the sale date.

Each time an SBIC draws leverage on a commitment the draw proceeds are reduced by a SBA fee of 2.425%, which is comprised of: 2% SBA user fee, .375% underwriters’ fee and .05% administrative fee.

The following table summarizes the Cost of SBA Leverage as previously described:

	Amount	Description
One Time Costs:		
Commitment Fee	1%	Paid at time commitment is issued
Leverage Fee	2.425%	Reduces proceeds each time the Partnership draws funds Comprised of: SBA user fee 2%, underwriters' fee .0375%, administrative fee .05%
Annual Fees:		
Interim Rate	Libor + 30 basis points, plus annual SBA charge on commitment	Temporary rate paid from the date of draw until the debenture is pooled
Pooled Rate	10 year Treasury Rate, plus premium required by purchasers and annual SBA charge on commitment	Fixed rate paid from pooling date to maturity of 10 year debenture

The SBA committed on February 12, 2015, to reserve Leverage in the amount of \$20,030,000, to be issued to the Partnership on or prior to September 30, 2019. The amount of the annual “Charge” is determined in the fiscal year in which a Leverage Commitment is issued and applies to all Leverage issued pursuant to that Commitment. The annual “Charge” on the current Commitment is .742%. The Partnership paid a fee of \$200,300 for this commitment and is being amortized on a straight-line basis until the commitment expires.

Leverage fees incurred on draws taken down from the SBA during 2016 and 2015 totaled \$173,509 and \$61,231, respectively, and are being amortized over the ten year term of the leverage drawn on a straight-line basis. Deferred financing costs (commitment and leverage fees) totaled \$435,040 and \$261,531 as of December 31, 2016 and 2015, respectively. Amortization expense recorded for the years ended December 31, 2016 and 2015 totaled \$55,266 and \$37,118, respectively.

3. Small Business Administration debenture securities, continued

During 2016, the Partnership drew down additional funds totaling \$7,155,000 and as of December 31, 2016, the Partnership had drawn a total of \$9,680,000 from the first tier commitment of \$20,300,000 with \$10,620,000 still available to be drawn.

The following schedule details the Partnership draws from the SBA, interest paid for the year ended December 31, 2016 and accrued interest as of December 31, 2016.

Date	Maturity	Total Pooled Rate	Total Interim Rate	Draw Amount	Accrued Interest at 12/31/15	Interest Paid in 2016	Accrued Interest at 12/31/16	Total Interest Expense 2016

					<u>\$ 2,525,000</u>	<u>\$ 1,393</u>	<u>\$ 8,774</u>
							<u>\$ 10,167</u>

4. Management agreement and related party transactions

The General Partner has contracted with AAVIN Equity Advisors, LLC (“AAVIN”) to manage the Partnership’s activities. Under the terms of the Management Agreement (“agreement”), AAVIN provides essentially all of the management and administrative services required by the Partnership. The Management Agreement expires upon termination of the Partnership. The management fee is based on the total amount of capital under management (regulatory capital plus assumed SBA leverage). The management fee will be up to 2.5% of the total amount of capital under management for the five years following the initial closing, and thereafter up to 2.5% of the cost basis of loans and investments in active portfolio companies. However, if the total amount of capital under management exceeds \$60 million, SBA policies require a proportionate reduction in the percentage rate down to a rate of 2.0% when the base is \$120 million or more. SBA rules require that fees received under 13 CFR 107.860 of the SBA regulations (loan application or closing fees) must be paid directly to the SBIC fund or treated as an offset to management fees. During the year ended December 31, 2016 and 2015, \$261,285 and \$68,219 of these fees were generated related to the closing of five and two investments, respectively. Pursuant to the Management Agreement, other fees received by the General Partner or AAVIN from any portfolio company reduce eligible management fees as well. Other fees received for the years ended December 31, 2016 and 2015 were \$23,700 and \$-0-, respectively. Total offsetting fees to management fees for the years ended December 31, 2016 and 2015 were \$284,985 and \$68,219, respectively.

During the years ended December 31, 2016 and 2015, management fees to AAVIN totaled \$1,230,303 (net of \$284,985 in fees) and \$1,416,075 (net of \$68,219 in fees), respectively. Accrued management fees of \$408,916 and \$307,162 were payable to AAVIN at December 31, 2016 and 2015.

Six of the limited partners of the Partnership are also members of the General Partner. One of the members of the General Partner owns 100% of AAVIN Equity Advisors, LLC.

During the year ended December 31, 2015, the Partnership reimbursed AAVIN for syndication and organization costs that had been accrued as of December 31, 2014, in the amount of \$145,558.

The General Partner may elect to reduce up to 100% of management compensation that would be payable in order to satisfy the 1% capital contribution of the General Partner. The General Partner’s total committed capital at December 31, 2016 total \$207,050 with contributions to date totaling \$108,701. Management fees waived to reduce contributions totaled \$82,820 and \$381 for the years ended December 31, 2016 and 2015, respectively. Management fees totaling \$83,201 have been waived since the Partnership commenced operations.

5. Syndication costs

Syndication costs of \$41,632 were incurred in 2014 and are recorded as a reduction of partners’ capital. These costs included \$20,625 payable to Nations Financial Group Inc., a placement agent, and \$21,007 payable to an affiliate, AAVIN. As of December 31, 2016 and 2015, \$12,375 and \$16,500, respectively, is included in accounts payable to Nations Financial Group, Inc. and is being paid in quarterly installments of \$1,031 through December 31, 2019.

6. Note payable

The Partnership had a revolving credit agreement with a bank that expired on August 31, 2016, which authorized maximum borrowings of \$4,000,000. Advances bore interest at the greater of 6.0% or the Wall Street Prime rate, adjusted daily. During 2016, the Partnership entered into a new revolving credit agreement with the same bank, which authorizes maximum borrowings of \$4,000,000. Advances bear interest at 1.0% above the Wall Street Prime rate, adjusted daily (combined rate of 4.75% at December 31, 2016). The agreement expires August 17, 2017. As of December 31, 2016 and 2015, the Partnership had no outstanding balance under these agreements. Interest paid for the years ended December 31, 2016 and 2015 under these agreements, total \$10,127 and \$4,090, respectively.

7. SBA compliance

The SBA requires the Partnership to calculate a quarterly capital impairment ratio and notify the SBA if impairment exists. As of December 31, 2016 and 2015, the fund was in compliance with its' permitted capital impairment threshold.

8. Partner capital commitments, contributions and unfunded commitments

At the inception of the Partnership, the partners entered into subscription agreements obligating the partners to purchase a partnership interest equal to an agreed upon amount of future total commitments. As of December 31, 2016 and 2015, the amounts of contributions to date and remaining unfunded commitments are summarized as follows:

	December 31, 2016		
	General Partner	Limited Partners	Total
Commitments	\$ 207,050	\$ 20,500,000	\$ 20,707,050
Contributions to Date	<u>108,701</u>	<u>10,762,500</u>	<u>10,871,201</u>
Unfunded Commitments	<u>\$ 98,349</u>	<u>\$ 9,737,500</u>	<u>\$ 9,835,849</u>

	December 31, 2015		
	General Partner	Limited Partners	Total
Commitments	\$ 207,050	\$ 20,500,000	\$ 20,707,050
Contributions to Date	<u>25,881</u>	<u>2,562,500</u>	<u>2,588,381</u>
Unfunded Commitments	<u>\$ 181,169</u>	<u>\$ 17,937,500</u>	<u>\$ 18,118,669</u>

Unfunded commitments are expected to be called over the next three to five years.

9. Subsequent events

On January 20, 2017, CPI Luxury Group repaid \$2,630,560 of their subordinated secured note. Penalties and fees of \$88,870 assessed on the prepayment are to be paid in three monthly installments starting in January 2017. \$31,993 was paid on January 20, 2017 and the remaining balance will be paid at the end of February and March 2017.

Subsequent events were evaluated through February 13, 2017, the date the financial statements were available to be issued.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
B12 TRANSPORTATION GROUP, LLC - INVESTMENT VALUATION

December 31, 2016

Valuation

The valuation of B12 Transportation Group, LLC (B12) as of December 31, 2106, is \$1,636,032 for AAVIN Mezzanine Fund, LP (AMF) and \$665,010 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. Total amount invested by AAVIN Funds equals \$2,301,042.

Business Description

B12 is a holding company that has acquired two companies and they operate as wholly owned subsidiaries.

B12 was acquired on December 7th 2015. Brown is a 69 year old company that is a manufacturer of cargo van bodies and an upfitter of Rail "Maintenance Of Way" equipment. The company is headquartered in Lawrence Kansas.

Diamond Coach (Diamond) was acquired on December 27, 2015. Diamond is a 50 year old company that is a manufacturer of 15-20 seat courtesy buses. The primary customers are senior care, airports, auto rental and hospital industries. The company is located in Oswego, Kansas.

Financing

Through the investment in B12, AMF and AEPII participated in a buyout of the stock. The total purchase price for the business which include real estate was \$16,403,876. Four other funds including three SBIC's participated in the transaction. The difference between the

purchase price and the enterprise value is primarily the operating line of credit for B12.

AMF, invested a total of \$1,636,032 in the transaction. The investment is \$817,607 in 11% subordinated debt with a five-year term (the interest rate increases to 12% - year 2, 13% - year 3, and 14% thereafter) and \$817,607 in 5% preferred units and \$818.00 in common membership units. The preferred dividend compounds annually and increases from 5% to 6% after the 5th anniversary date. The preferred units are redeemable at any time by the company for the amount of the accrued dividends plus the original cost. The preferred units are puttable by any holder thereof any time after the 7th anniversary at the amount of the accrued dividends plus the original cost.

AEPII, invested a total of \$665,010 in the transaction. The investment is \$332,393 in 11% subordinated debt with a five-year term (the interest rate increases to 12% - year 2, 13% - year 3, and 14% thereafter) and \$332,393 in 5% preferred units and \$332.00 in common membership units. The preferred dividend compounds annually and increases from 5% to 6% after the 5th anniversary date. The preferred units are redeemable at any time by the company for the amount of the accrued dividends plus the original cost. The preferred units are puttable by any holder thereof any time after the 7th anniversary at the amount of the accrued dividends plus the original cost.

AMF/AEPII hold one Board seat and one observer position on the Board of Directors of B12.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
B12 TRANSPORTATION GROUP, LLC - INVESTMENT VALUATION

December 31, 2016

Current Status

AMF and AEPII closed this investment on December 7th, 2015. The company has completed its first year post close. 2016 has been a transition year for the company. The company has invested in a growth framework that will begin to show results in the first quarter of 2017.

YTD sales are short of plan by \$3,472,000. The primary driver of the variance has been a down turn in the rail industry in 2016. There was a significant drop off in rail product sales compared to 2015 and compared to 2016 budget. EBITDA is behind plan YTD approximately \$800k. This is primarily due to the fall off in rail and also investing margin in growth initiatives which the company is beginning to realize. Rail is beginning to rebound and the company expects to see improvement in rail as well as overall sales in 2017. The company is forecasting \$40 million in sales in 2017 with an EBITDA of \$2,850,000. The company has expanded its customer base and also has developed a new product line "trolley" that will begin production in January 2017. Current backlog is close to \$7 million and the highest it has been this year. There is a lot of optimism going into 2017 and the company has a strong but achievable plan for 2017.

Keys to Success

- Maximize combined entities synergies

- Expand sales into other product lines
- Continue to gain market share in rail products and truck products
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and also pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
CPI LUXURY GROUP - INVESTMENT VALUATION
DECEMBER 31, 2016

Valuation

The valuation of CPI Luxury Group ("CPI") as of December 31, 2016, is \$3,554,811 for AMF and \$1,445,189 for AEPII each of which is equal to the original cost of the investment and the previous valuation. Total amount invested by AAVIN Funds equals \$5,000,000.

Business Description

CPI imports and wholesales pearls and other related jewelry products. CPI purchases freshwater pearls direct from farmers in China, has the pearls processed in Hong Kong (drilling, bleaching and stringing operations) and imports the pearl strings to the United States. At its location in Los Angeles, the Company categorizes the pearls and does final assembly, boxing and shipping to stores or directly to end customers. CPI is the primary pearl provider to a number of large national accounts, including Macy's, JC Penney, Fred Meyer, Helzberg and Kohl's. CPI sells not only generic pearl jewelry, but also branded product to certain accounts (Belle de Mer to Macy's, Joy de Mer to Fred Meyer). Since 2011 CPI has also sold through an Amazon storefront as pearlzzz.com and since 2013 direct to Amazon's curated products program.

Financing

AAVIN Mezzanine Fund, LP (AMF) and AAVIN Equity Partners II, LP (AEPII) participated in a recapitalization of CPI's existing debt of \$24,220,179 with Salus Capital (representing approximately \$1,100,000 below the then outstanding balance with Salus as an incentive to close

by June 30, 2016). East West Bank provided a revolving line of credit of \$25,000,000, of which \$20,003,179 was funded at closing.

AMF invested a total of \$3,554,811 in the transaction. The investment is entirely in 17.5% subordinated debt with a five year term.

AEPII invested a total of \$1,445,189 in the transaction. The investment is entirely in 17.5% subordinated debt with a five year term.

AMF/AEPII have the right to have one observer attend board meetings.

Current Status

AAVIN closed this investment on June 30, 2016. The Company was largely on plan for the first half of the year. In the second half, however, its top line was significantly affected by store closings at Macy's, the Company's largest customer. Management reacted quickly to reduce costs, including having the executives take significant compensation cuts. As a result, while sales have been down from plan, the Company has been able to stay well within the financial covenants set by its senior lender.

The Company currently is budgeting 2017 sales of \$18.4 million, which is about flat from where 2016 is expected to end. There is significant upside potential, however, with JC Penney (which has already increased orders over last year) and Amazon (which is currently negotiating with CPI regarding additional opportunities). CPI also plans to continue to reduce inventory and improve inventory turns.

Keys to Success

- Replace business lost due to Macy's store closings
- Continue to maintain sales with key national accounts while improving margins
- Reduce inventory to free up cash and focus on items with improved inventory turns
- Generate excess cash flow to pay down sub debt over time

Exit Strategy

The owner of CPI is currently in the process of refinancing the building owned by him and occupied by CPI and refinancing a portion of the AAVIN loans. It is currently anticipated that the refinancing will close in January and result in a reduction of AAVIN's loan principal by \$3.70 million and prepayment penalties of \$125,000. In connection with this transaction, the interest rate on AAVIN's remaining loans will also increase from 17.5% to 18.0%. CPI intends to try to refinance the remainder of the AAVIN loans as soon as possible, or alternatively use free cash flow to continue to pay down the AAVIN loans over time.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP Montana SilverSmiths, LLC - INVESTMENT VALUATION

December 31, 2016

Valuation

The valuation of Montana SilverSmith as of December 31, 2016, is \$1,777,500 for AAVIN Mezzanine Fund, LP (AMF) and \$722,500 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment less the amount of the bridge loan of \$500,000 which was repaid on 12/31/16. The total amount invested by AAVIN combined funds was \$3,000,000 less the amount of the bridge loan of \$500,000.

Business Description

Montana SilverSmith is a manufacturer and the largest supplier of western buckles, jewelry and watches. The company is the most recognizable brands in the western lifestyle industry. Montana is located in Columbus, Montana and has been in business for over forty years. The company sells its products through large western retailers such as Boot Barn and Cabellas as well as farm stores independent specialty shops. The company also sells through event sponsorships promotional outlets, television jewelry sales, and a growing on-line presence.

Financing

AMF and AEPII participated in a buyout of the stock of Montana SilverSmiths. The total purchase price for the business which includes the real estate was \$9,000,000. Two other SBIC's participated in the transaction.

AMF, invested a total of \$2,133,000 in the transaction. The investment is comprised of \$1,244,250 in 17% (13% current pay + 4% PIK) subordinated debt with a five-year term and \$533,250 in Class A

membership units and \$355,500 in the form of a 10% bridge note. As of December 30, 2016 the bridge note was repaid.

AEPII, invested a total of \$867,000 in the transaction. The investment is comprised of \$505,750 in 13% current pay + 1% PIK subordinated debt with a five-year term and \$216,750 in series A membership units and \$144,500 in the form of a 10% bridge note. As of December 31, 2016 the bridge note was repaid.

AMF/AEPII hold one Board seat on the Board of Directors of MSS.

AMF/AEPII have the right to also have two observers attend board meetings.

Current Status

AAVIN closed this investment on October 28, 2016. The company had a strong October but November and December were behind plan due to softness in the specialty retail segment. The company has completed the process and added Private Bank as a senior lender providing a revolving line of credit. The company has no term debt. The company has \$3 million of availability. The company retired the bridge notes provided by the Investors. Private Bank has provided a \$6.3 million LOC for the company.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
Montana SilverSmiths, LLC - INVESTMENT VALUATION

December 31, 2016

Keys to Success

- Hired a new COO and CFO.
- Expand sales into other product lines
- Continue to gain market share in e commerce as well as specialty sales and event sales.
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP Odessa AIM Holdings. Inc. - INVESTMENT VALUATION

December 31, 2016

Valuation

The valuation of Odessa Aim Holdings, Inc. (“AIM” or the “Company”) as of December 31, 2016, is \$3,199,329 for AMF and \$1,300,671 for AEPII each of which is equal to the original cost of the investment.

This a new investment during the valuation period so there is no previous valuation for comparison. Total amount invested by AAVIN Funds equals \$4,500,000.

Business Description

AIM, a Delaware corporation, is a holding company established by AAVIN to recapitalize and hold the ownership of Odessa American Industrial Machine, LLC. AIM is a specialty manufacturer of machined parts and components for industrial engines and compressors serving companies with natural gas processing facilities in the Permian Basin (Odessa, Texas and vicinity). AIM provides service to owners of natural gas compression systems whose need is often immediate and critical. When a failed or damaged part on a high value engine or compressor causes an outage, it can, in turn, cause the natural gas producer to incur significant expense and lost revenue. Given the 24/7/365 rugged operating field conditions, component parts need to be repeatedly repaired or replaced. Approximately 70% of Company work is for unplanned part failures. The Company has a reputation for being highly responsive to this urgent, time dependent, customer requirement. The Company rebuilds or fabricates parts in their machining operation and provides the replacement to its customers which then manage the installation.

Financing

On August 31, 2016 AAVIN closed on a recapitalization that it lead to provid significant liquidity to John Hutson and Walt Tonge (the prior sole owners of AIM) in the amount of \$6,000,000 at closing in exchange for a 50% interest in the Company. AAVIN invested \$4,000,000 to support this transaction and secured another \$2,000,000 in senior term debt from Parkside Financial Bank & Trust. An additional \$1,000,000 in a working capital line of credit based upon receivables and inventory was also put in place and was undrawn at closing. AAVIN provided a total of \$4,500,000 to provide for the recapitalization, closing costs and initial cash operating capital.

AMF invested a total of \$3,199,329 in the transaction: \$2,630,561 was in the form of a 14% 5-year subordinated note, \$563,080 was in 8% redeemable preferred stock and \$5,688 was in common stock representing 36% of the outstanding ownership of the Company.

AEPII invested a total of \$1,300,671 in the transaction: \$1,069,439 was in the form of a 14% 5-year subordinated note, \$228,920 was in 8% redeemable preferred stock and \$2,312 was in common stock representing 14% of the outstanding ownership of the Company.

AMF/AEPII have the right to have two seats on the board of directors.

Current Status

AAVIN closed this investment on August 31, 2016. The Company sales have been less than they had projected through the end of the year but they did see significant recovery in December. While the Company

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP Odessa AIM Holdings. Inc. - INVESTMENT VALUATION

December 31, 2016

has been behind plan it has not had cash flow issues, is paying its bills on time and has yet to have to access its revolving line of credit.

The Company believes that the lower level of sales that the Company experienced is due to the lingering effects of a low gas price market and the pressure that places on some of its customers that have commodity risk. The gas market has recovered significantly from its lows in early 2016 of approximately \$1.50 to around \$3.50 today. The current expectation is that the price in the coming year will hover around \$4.00. This pricing should provide relief to those customers that have deferred past maintenance expenses.

The Company had rudimentary accounting and the last few months have been spent bringing the Company up to GAAP. AAVIN brought in an outside contractor to assist in this process. At this time the process is pretty much complete, however, the Company will still need to implement an adequate inventory accounting system to maintain its inventories properly. The Company has always managed these areas adequately in the past but with the prospect of more growth and the need to comply with the its banking provisions the systems need upgraded.

Keys to Success

- Successfully implement more sophisticated systems to track financial and operational metrics and use to evaluate and help manage growth.
- Determine supplemental personnel needs to provide for and manage growth and successfully recruit and hire.
- Execute on growth plans prudently. Evaluate options and prioritize relative to available resources and economic opportunity. Develop measurable target endpoints. Implement and proactively monitor feedback against targeted results. Take timely and corrective actions as appropriate.

Exit Strategy

The potential exit opportunities for this Company are most probably a sale to a strategic or financial acquirer. The management team has built a similar previous company that was sold to Dresser-Rand a strategic acquirer.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP SPI ACQUISITION HOLDINGS, INC. - INVESTMENT VALUATION

December 31, 2016

Valuation

The valuation of SPI Acquisition Holdings, Inc. and its wholly owned operating subsidiary, Standard Precast, Inc. (SPI or Company) is equal to cost as of December 31, 2016 which is \$ 3,448,350 for AMF and \$1,401,650 for AEPII. This a new investment during the valuation period so there is no previous valuation for comparison. Total amount invested by AAVIN Funds equals \$4,850,000.

Business Description

SPI is a manufacturer of precast concrete products that are used in the collection and distribution of water and wastewater infrastructure projects. While it makes a variety of products for these applications, the majority of items sold are manholes, box culverts, and inlets. The Company and plant are located in Jacksonville, Florida and the majority of the Company's business is from that area. SPI was started in 1961 and has operated continuously since that time.

Financing

AAVIN invested \$4.850 million in the acquisition of SPI. The transaction closed on December 27, 2016. AAVIN was joined in the purchase by Diamond State Ventures which invested an identical amount on identical terms. We each own approximately 44.8% with the remainder owned by Woodlake Advisors who sponsored the transaction and will have an ongoing management role and a significant ownership incentive based on the Company's ultimate liquidation value. Senior bank financing of \$9 million was provided by Hancock Bank which also is providing a line of credit of up to \$2.5 million. Finally, although separate from our purchase transaction, the

Company sold its' real estate for approximately \$7.5 million in a sale and leaseback (by the new Company) to Store Capital.

Current Status

AAVIN closed this investment on December 27, 2016. The Company has had no results to report, although shipments in the last couple of weeks have been strong and backlog remains high.

Keys to Success

1. Continue to maintain high margins and dominate the Jacksonville market.
2. Transition to replacement management for the CEO and add a more professional CFO in the relatively near future.
3. Look for expansion opportunities that make sense both in Florida and nearby states.
4. Reduce debt as quickly as feasible.

Exit Strategy

The plan is to sell the Company to a larger national player in the precast business. Assuming strong performance, a successful transition to a new CEO, and some growth along with debt reduction, this should be feasible in the 5-year time frame.

Totals	\$ 10,225,000	\$ 5,895,000	\$4,330,000	4,330.00	100.00%	100.00%

Class A is issued at the discretion of the board and the 10% represents the maximum that might be issued. Class B has no value as of 12.31.16. The future value of the Class B will be determined by the ultimate liquidation value of the Company upon its' sale and is related to the multiple of investment received by the Preferred Shares. If such multiple is 1.5x the Preferred cost plus 8%, the B has no value. Thereafter, as the multiple of cost plus the 8% increases to a maximum of 3x cost, the Bs' value will increase to the maximum of 22.25% of the liquidation value as shown above.

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP TRANSFER TOOL HOLDING, LLC - INVESTMENT VALUATION

December 31, 2016

Valuation

The valuation of Transfer Tool Holdings, LLC (TT) as of December 31, 2016, is \$1,874,185 for AAVIN Mezzanine Fund, LP (AMF) and \$765,480 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. The total amount invested by AAVIN combined funds was \$2,639,665.

Business Description

TT develops and manufactures deep drawn metal stampings for long time blue chip customers serving primarily the automotive industry. Established over 30 years ago the company is located in Grand Haven, Michigan. The company has developed a strong niche in the automotive supply industry. The company has been able to develop a long-term relationship with a variety of large automotive manufacturers. TT specializes in high volume production of small custom parts up to 10" in diameter in steel, stainless steel, brass aluminum and other alloys. In addition to its primary function TT also provides services of cleaning, plating, rust inhibiting, deburring, vibratory heat treating and machining.

Financing

AMF and AEPII participated in a buyout of the stock of TT. The total purchase price for the business which includes the real estate was \$26,850,936. Four other SBIC's participated in the transaction. AMF, invested a total of \$1,774,890 in the transaction. The investment is comprised of \$1,064,934 in 14% subordinated debt with a five-year term and \$709,956 in common membership units.

AEPII, invested a total of \$725,110 in the transaction. The investment is comprised of \$435,066 in 14% subordinated debt with a five-year term and \$290,044 in common membership units.

On November 4, 2016, TT raised additional capital to fund a plant expansion. AMF invested a total of \$99,295 in this follow-on financing of which \$59,577 is in 14% subordinated debt and \$39,718 is in common membership units. AEPII invested a total of \$40,360 in this follow-on financing of which \$24,216 is in 14% subordinated debt and \$16,144 is in common membership units.

AMF/AEPII hold one Board seat on the Board of Directors of TT. AMF/AEPII have the right to also have two observers attend board meetings.

Current Status

AAVIN closed this investment on August 10th, 2015. The company was on or close to plan through June 2016 however the company has struggled in the last half of the year. The company has seen margin deterioration due to their highest margin customer accelerating taking their business back in house and not reacting quickly enough to a surge in new parts orders from their largest customer. As a result the company has been losing margins on late delivery and freight charges. The company is working to get back on track with margins the first half of 2017. The company has now been able to significantly lower late shipments and expedited freight charges and get back on time with customers. The company has made a significant investment in growth infrastructure in 2016 which has needed to be completed ahead of the new business it serves. The company has a significant new customer

AAVIN Mezzanine Fund, LP/AAVIN Equity Partners II, LP
TRANSFER TOOL HOLDING, LLC - INVESTMENT VALUATION

December 31, 2016

which will begin shipping in the second quarter. This new business could grow to over \$7 million over three years.

Starting in October 2016, in exchange for the senior lender to reset their covenants the Investors agreed to forego interest until such time as the company is back in full compliance.

Keys to Success

- Hired a new CEO
- Expand sales into other product lines
- Continue to gain market share in automotive products
- Pay down acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and also pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

Valuation

The valuation of Verrex, LLC as of December 31, 2106, is \$1,421,924 for AAVIN Mezzanine Fund, LP (AMF) and \$578,076 for AAVIN Equity Partners II, LP (AEPII) each of which is equal to the original cost of the investment. Total amount invested by AAVIN Funds equals \$2,000,000.

Business Description

Verrex LLC, is a global design-build and managed services provider of complex audio and video communication technologies, helping companies connect through videoconferencing, audio conferencing, collaboration, presentation, training, video display and AT/IT integrated communication systems.

Verrex was acquired on July 28, 2016. Verrex was founded in 1947 and located in Mountainside, New Jersey. The company has been in business for close to 70 years. The company does business internationally in North America, Canada, United Kingdom, Hong Kong, Singapore and Japan.

Financing

Through the investment in Verrex, AMF and AEPII participated in a buyout of the stock. The total purchase price for the business was \$13,000,000. Two other SBIC's participated in the transaction. The difference between the purchase price and the enterprise value is primarily the operating line of credit for Verrex.

AMF, invested a total of \$1,421,924 in the transaction. The investment is \$888,702 in 14% subordinated debt with a five-year term and \$333,221 in class A membership units.

AEPII, invested a total of \$578,076 in the transaction. The investment is \$361,298 in 14% subordinated debt with a five-year term and \$216,778 in class A membership units.

AMF/AEPII hold one Board seat and one observer position on the Board of Directors of Verrex.

Current Status

AMF and AEPII closed this investment on July 20, 2016. The company has concluded an audit of its opening balance sheet and has also has completed the working capital true-up. The company has been making progress transitioning from a 70-year family owned company to a private equity financed growth company. AAVIN invested with two other SBIC's, Diamond State Ventures and MidStates Capital. The company has long term relationships with customers which include large banks and law firms. The company operates both domestically and internationally. YTD sales are close to plan. YTD gross margin is approximately 8% behind plan.

Keys to Success

- Expand into West Coast Office second half of 2017
- Expand sales into other applications
- Continue to gain market share in multimedia AV products
- Paydown acquisition debt

Exit Strategy

The exit strategy for this investment will be to grow the company over the next five years and pay down acquisition debt and engage an investment banker at that time to run a sale process to sell the company to an industry buyer or to a financial buyer.

Waterfall

In the event of a sale of the company and after the repayment of any revolving credit, all senior debt and any other retained liabilities, the Sub Debt of \$4,225,000 plus all accrued and unpaid interest would be paid next. Then Preferred Units of \$3,825,000 plus all accumulated dividends would be paid next ratable among the holders thereof. Any remaining balance of proceeds would then be paid ratably to the holders of common units.
